

Homecare Estepona Rental Portfolio at Dominion Beach

The Area

Estepona conserves all the charms of a typical Andalusian town, with its peaceful squares bedecked with colourful flowerpots and little white houses. There are numerous restaurants around the area, from traditional Mediterranean dishes to innovative, international cuisine. More than 20 kilometers of fine sandy beaches stretch under the Mediterranean sun. The beach promenade will soon be extended from Dominion Beach to Estepona

Just 10 minutes away you find **Puerto Banús**, an internationally famous yachting marina with leisure and shopping facilities. The port has been made in to a vibrant shopping nightlife and parading area. The port is a special place and you can spot the most expensive and largest yachts and the most exotic cars here. You will find plenty of fantastic restaurants, beach clubs and nightclubs around this area.

Shortly after Puerto Banús you'll reach the elegant town of **Marbella**, situated in the foothills of the Sierra Blanca. A Mediterranean favourite with holidaymakers from all over the world. Here you will also find incredible beaches, world-renowned restaurants and entertainment for all tastes.

Wonderful urbanization, very careful and quiet. Highly recommended if you want to spend some quiet days with your family. The only downside is that it is poorly conditioned for carts or wheelchairs. However, there are routes to move around the urbanization without finding a step, although they are not indicated, you have to explore a bit. It is important to mention that it is isolated from any urban center, so a car is essential for anything you need to buy. The beach, along the coastline of Malaga, calm, crystalline waters and dark sand with stones on the shore.

A very smart apartment on the complex with all expected amenities. Note there was some competition for the loungers by the pool side with the usual towel brigade but thankfully adequate outdoor space in the apartment plus beach side loungers made this less of an issue. The host was quick to respond to any questions and resolved an issue with the WiFi promptly. With a car to explore Estepona is a lovely town to explore and is highly recommended!

Lovely apartment for a lovely holiday. A car is a must due to location but it is well located between Puerto Banus and Estepona to visit local tourist spots
